

hot asphalt
on demand **is here**

and we'd like to show it to you

 **hotmix**
volumetric hot asphalt mixer

hot asphalt volumetrically mixed onsite

*from the inventor
of the volumetric
concrete mixer*

*6-9 tonnes of
hot asphalt
per hour*

*your customer
pays only for
what they use*

*24 hours a day,
7 days a week*

*one man
operation*

We are holding open days throughout February 2014, where we'd like to show you exactly what this new equipment is capable of and how it can benefit your business. If you would like to attend please call Andrew Collins on **0800 151 0257** and we will arrange for you to have a full demonstration & further details.

We're really excited about the potential of these trucks, and we're convinced that you'll agree with us.
